

**VERSANT POWER
ASTRONOMY CENTER**
and the Maynard Jordan Planetarium

Don't miss the eclipse!

On Monday, April 8, 2024
Maine will experience a Total
Solar Eclipse! The last time this
occurred was on July 20, 1963,
so try not to miss this one!

Never look at the sun directly without proper protection, as doing so can cause eye damage. The planetarium has special programming and eclipse glasses available in their gift shop. Visit <https://astro.umaine.edu/eclipse/> to learn more.
